

SPECIFICACIONES

Model number	DJDD-230P
Dehumidify capacity	230Pints/day (T:27 °C /60%RH)
Supply Voltage	220-240V/50Hz
Efficiency	2.95L/kwh
Power Consumption	1539W
Current draw	7.06Amps
Circulating air flow	1500m ³ /h
Humidity control range	45%-95%
Working Temperature Range	5~38°C
Rotary Compressor	LG
Breaker size	10amps
Compressor type	Rotary
Refrigerant	Eco-friendly R410a
Drainage port	3/4"
Sound	60dB(decibel)
N.Weight/G.Weight	77kgs/99kgs
Dimension(L*W*H)	870x770x478mm
Packaging	930x870x620mm

FEATURES

- High efficiency / energy saving / less power consumption
- Automatic restart on and off with memory function
- Continuously drainage in 24 hours by tube
- High precision humidity control with $\pm 3\%$ RH, ambient humidity
- controlled > RH45% based on temp
- Compressor with 3 minutes delay - starting protection
- Auto-defrosting function
- High and Low pressure protection
- Malfunction display Error code timely
- Easy operation and simple installation on ceiling
- 24V dry contacts, be compatible with Trolmaster controller

TOJJE SERVICE

- 1.OEM/ODM orders welcomed, full sets drawings provide within 7 days
- 2.Precision solution and offer provide within 2 days, fastest response by kinds of communication way
- 3.One-to-one unique on-call customer service with 10 minutes reply rate
- 4.1 year warranty for whole unit, allow extend the warranty 2 year after discussion.
- 5.Supply spare parts for free if machine damaged because of quality defects.
- 6.Provide Ce certificates,quality assurance agreements,technical advice, installation guidance.

WORKING PRINCIPLE

The design purpose of the TOJJE DJDD-230P dehumidifier is to dehumidify the air entering the unit by entering the evaporator coil, in order to lower the air temperature below the dew point. Humidity is removed from the air and discharged from the outside of the device to public floors or waste discharge outlets. Then, the air overheats in the serpentine tube of the condenser and leaves the device. Dehumidification occurs before reaching the set value, and then closes until the control determines the necessary operation.

IMPLEMENT

The TOJJE DJDD-230P dehumidifier is the perfect solution for accurately adjusting the humidity required for indoor cultivation environments.
